XXVIII BIOVET SYMPOSIUM 2017

GREETINGS

You are welcome to the **Symposium BIOVET,S.A. 2017** for America.

The Research and Development team of BIOVET works every day to offer improvement to productive parameters, combining laboratory tasks with those ones done by clinicians. This joint work makes sure that the final product is going to be the best to suit to our customers and distributors requirements.

This **Symposium 2017**, held in **USA**, will be distributed in two days:

On February 3rd will be presented four sessions regarding: intestinal conditioners pronutrients, intestinal optimizers pronutrients, immune stimulants pronutrients and Alquer mold Natural. All these sessions will be followed by the results of in vitro assay to highlight the benefits of pronutrients, active molecules present in plant extracts which can improve the physiology of the organism.

On February 4th for the closure ceremony of Symposium, it will be held two sessions, one on the Transatlantic Trade and Investment Partnership (TTIP), and the second on avian pathology.

We are grateful for your presence and participation in this international forum created to discuss the optimization of the quality of feed animals for human consumption.

Atlanta Airport

Thursday, Feb 2nd

20:00 h. **Welcome dinner to the Symposium**

Friday, Feb 3rd

08.00 h. **Reception and delivery of material**

08.10 h **Welcome and opening: Lic. Carlos Domenech** (General Manager Biovet S.A.)

08.30 h **First Session: Intestinal Conditioners Pronutrients Session:**

Moderator: **Lic. Victor Huguet** (Biovet S.A.)

Dr. J. Brake (North Carolina State University): Alquer nat Nebsui vs BMD

Dra. Cristina Latasa: In vitro Nebsui

10.00 h. **Second Session: Intestinal Optimizers Pronutrients Session:**

Moderator: **Lic. Victor Huguet** Biovet S.A.)

Dra. Anna Tesouro (Biovet S.A.): Alquer nat Zycox vs coccidiostatics

11.00 h. **Coffee Break**

11.30 h. **Third Session: Pronutrients Immunoestimulants:**

Moderator: **Dr. J. Brake** (North Carolina State University)

Dra. Júlia Pié (Biovet S.A.) - Field Results of A. Immuplus vs Levamisole

Dr. Yu (University of Fujian) - Field Results of A. Immuplus

Dra. Cristina Latasa: In vitro assay Immuplus

12.30 h. **Fourth Session: Alquer mold Natural**

Moderator: **Dr. J. Brake** (North Carolina State University)

Dr. Sagar M. Goyal (University of Minnesota) - In vitro assay Alquer mold Natural (*Salmonella*)

Dra. Anna Tesouro (Biovet S.A.)- In vitro assay Alquer mold Natural in CIAD

Dra. Cristina Latasa: In vitro assay Alquer mold Natural (*Salmonella*)

14.00 h. **Lunch**

Saturday, Feb 4

10.00 h. **Fifth Session: Transatlantic trade and investment partnership (TTIP):**

Moderator: **Lic Carlos Domenech** (Biovet S.A. General Manager)

Lic. Carlos Domenech and Lic. Victor Huguet (Biovet S.A.)

Dr. J.Brake (North Carolina State University)

11.00 h. **Coffee Break**

11.30 h. **Sixth Session: Avian Pathology**

Dra. Júlia Pié (Biovet S.A.)

13.00 h. **Closing Ceremony**—**Lic Carlos Domenech** (Biovet S.A. General Manager)

13.30 h. **Lunch**
