

# ALQUERNAT IMMUPLUS

## DESCRIPTION

Immune booster of natural origin in powder premix.

## TECHNICAL PROPERTIES

**ALQUERNAT IMMUPLUS** is a specialty based on plants with a high content of pronutrients that boost the specific and unspecific immune system of the animal.

**ALQUERNAT IMMUPLUS** strenghtens the immune condition of the animals, limiting the possibilities of secondary and recurring infections and improving the immune response with vaccines, increasing their efficacy.

## INDICATIONS AND SPECIES

All species and ages.

## COMPOSITION

<i>Ocimum sanctum</i> extract	375 g
<i>Emblica officinalis</i> extract	225 g
Excipient to 1 Kg	

## DOSAGE

**ALQUERNAT IMMUPLUS** is administered mixed with feed 10 days before the vaccine until 10 days after the vaccine at a dosis of:

Broilers:	0-4 weeks old: 5 mg per bird per day. More than 4 weeks old: 10 mg per bird per day.
Laying hens	0-20 weeks old: 5 mg per bird per day.
Turkeys:	More than 20 weeks old: 10 mg per bird per day.
Rest of species:	5 mg per animal per day.
