

# ALQUERNAT NEBSUI

## DESCRIPTION

Natural growth promoter with plant extracts.

## TECHNICAL PROPERTIES

Nowadays animal stocks have such genetic potential that feeds with a high protein and energy content must be supplied. This implies that the digestive system works in extreme conditions and pathogen bacteria can appear.

**ALQUERNAT NEBSUI** is a natural product that has a very high pronutrient content (polyphenol, essential oils, polysaccharides). Inside the digestive tract, it forms a polysaccharide gel that facilitates the growth of beneficial microorganisms and that inhibits pathogen proliferation.  
**ALQUERNAT NEBSUI:**

- Promotes the growth of beneficial microorganisms.
- Controls pathogen growth.
- Enhances nutrient absorption.
- Optimises properties of digestive mucus.
- Promotes animal growth and allows antibiotic promoters to be reduced or eliminated.

## INDICATIONS AND SPECIES

Natural growth promoter intended for poultry, pigs, goats, sheep and cattle.

## COMPOSITION

Holarrhena spp.	100 g	Punica granatum	200 g
Woodfordia fruticosa	150 g	Zingiber spp.	100 g
Aegle marmelos	150 g	Excipient to	1 kg

## DOSAGE

The product is administered mixed with feed 0.5 kg per ton during the entire life span of the animal.

## PACKAGING

Bags of 25 kg.
