

ALQUERFEED PROBIOTICO G PLUS

DESCRIPTION

Oral gel with probiotics designed to be administrated to young animals.

TECHNICAL PROPERTIES

ALQUERFEED PROBIOTICO G PLUS contains probiotic microorganisms that are natural substitutes of the intestinal flora. Microorganisms colonize intestinal spaces, acidifying the environment and synthesizing enzymes and bacteriokines.

This action leads to the repopulation of the intestinal tract, inhibiting the presence of pathogen bacteria and toxins and thus improving the feed digestibility. These effects are enhanced by the presence of vitamin B complex, that also cover part of animal's nutritional needs.

INDICATIONS AND SPECIES

Recommended for the repopulation of the intestinal flora after nutritional changes or antibiotic treatments in piglets and pre-ruminants.

COMPOSITION

<i>Lactobacillus acidophilus</i>	5 x 10 ¹¹ fcu
Vitamin B1	3 mg
Vitamin B2	2 mg
Vitamin B6	2 mg
Vitamin B12	15 mg
Excipient to 1 ml.	

DOSAGE

The product is administered directly into the animal's mouth at doses of 1–2 ml.

PACKAGING

Bottles of 250 ml with dispenser and bottles of 1 litre without dispenser.
